> Amazing grave, how sweet the sound That saved a wretch like me! Once I was lost, but now I'm found; Was blind: Lut now I see.

What many of you Christians need is

to get your grave clothes off. I rejoice that you have been brought from the death of sin to the life of the gospel, but you need to get your hands loose and your feet loose and your tongue loose and your soul loose. There is no sin that the Bible so arraigns and punctures and flagellates as the sin of unbelief, and that is what is the matter with you. "Oh," you say, "If you knew what I stand why I do not come out brighter." the key fits into the labyrinth of a lock, though the rain has stopped you stil Heaven is ninety-five per cent, better

than this world, a thousand per cent. better, a million per cent. Letter. Take the gladdest, brightest, most jubilaudays you ever had on earth and compress them into one hour, and that hou: would be a requiem, a fast day, a gloom, a horror, as compared with the poores hour they have had in heaven since 118 first tower was built, or its first gate swung or its first song caroled. you say, "that may be true, but I am se afraid of crossing over from this world to the next, and I fear the snapping of the cord between soul and body." all the surgeous and physicians and scientists declare that there is no pane at the parting of the body and soul, and all the seeming restlessness at the clos ing hour of life is involuntary and no distress at all. And I agree with the doctors, for what they say is confirmed by the fact that persons' who were drowned or were submerged until all consciousness departed and were after wards resuscitated, declare that the sensation of passing into unconsciousness with pleasurable rather than distressful. The cage of the body has a door on easy hisges, and when that door of the physical cage opens the soul simply puts out itwings and soars. "But," you say, "I mystery." Well, I will tell you how to ceased bothering me, for I do as the judges of your courts often do. They near all the argument in the case and then say: "I will take these papers and give you my decision next week." So I have heard all the argument in regard to the next world, and some things are upcertain and full of mystery, and so I fold up the papers and reserve until the next world my decision about them. 1 can there study all the mysteries to better advantage, for the light will be bet ter and my faculties stronger, and I will ask the Christian philosophers, who have had all the advantages of heaven for centuries, to help me, and I may be permitted myself to humbly ask the Lord, and I think there will be only one mystery left, and that will be how one so un- Atlanta, on the 15th of June. worthy as myself got into such an enraptured place. Come up out of the sepulchral shadows. If you are not Christians by faith is Christ come up into the light; and if you are already like Lazarus, reanimated, but still have your grave clothes on, get rid of them Tae command is "Loose him, and let him go." The only part of my recent journey that I really dreader sithough I did not say much about it beterchand, was the landing at Joppa. That is the port of entrance to the Holy Land, and there taking the people from the steamer to to 135. the docks must run between reefs that

Some New Bats and Wraps for Street and Evening Wear.

As the spring opens the Thibet-lined opera cloak will give way to fancy wrans. "some of which are excedingly piquant once was and how many times I have and graceful this season, as well as gorgrievously strayed, you would under- geous of tone and garniture," as the fashion writer in an exchange expresses

Then I think you will call yourself the it. Some are made of delicate plush, or chief of sinners. I am glad you hit upon of soft brocaded cloth, and are either Magyar galloon, or Chinese lamb, with Valois collar of the same, being much

These wrans are appearing more gencape. Shoulder capes and is ques have bad a long reign, and it curely cannot be because either one may be called a

thing of beanty or a joy forever. The toque is a shapeless form of headear, and must ove its popularity to the fact that it is a hybrid between a bonnet and a hat. The former always seemed slightly abrupt in the angle formed just above the ear, which is roun led off in the toque and leaves the effect of a cap at the pack. The shape of a bonnet is jaurtier, however, and the toque is only piquant when trimmed effectively. One of black French lace, for example, edged with a vine of buttercups or jessamine, interspersed with green leaves, with quellings of the late standing high bove a cluster of flowers, is pretty. Another, with high jet coronet, is attractive. Those made of folds of velvet bont the coronet are called the "Ruy

One of the prettiest hats of the sea og is broad-brimmed, low-crownedalthough crowns are taller than they have been-with one smoothly curved head over the left brow, as it hang wer the face. High triuming finishes the crown, and within the curve the cair shows artistically. To return to the toque-there is one made with the front upraised above the hair and dent ed in two places. With suitable trimning this is graceful, for it has the broad effect of tife round bonnet shape. The first mention we find in past annals conceroing the toque was in the early parof this century, when fashionable ladies referred to to this article of headdress in their correspondence,

One of the prettiest evening bonnets s an ethereal affair, almost a merwreath of flowers, for in lieu of crown the coiffure is revealed. Coronets are worn over the front of evening bonnets, and the present Marie Squart bonnet is very highly arched, and the curving brims faced with rich Oriental passementerie and oblique. The bandeaux for the coronets are frequently made in the Greek pattern. The Spanish hat, or torreador, is quite the rage at present, as

Success comes to those who deserve it, and hard work and strict attention | gave me entire relief." to business will bring its fruit. There is such a thing as luck, but it seldem comes, and he who waits for it will be radly disappointed. We must exert bottles of B. B. B. made a well man of ourselves wherever we may be to gain the golden fruit.

Many young men feel that South Carolina is a poor State to live in. All admit the abundance of her resources, but deny the ability to develop them. Now, we wish to tell of a man who has made a fortune here, with disadvantages to overcome which few have. It is simply of his success in the business world and what he has done in it that we will write.

John L. Mimnaugh landed in New York in 1873. He came from the north of Ireland, where his folks are well-todo. But he came to this country with only a nominal sum in his pocket and with the hope of fortune-making in his mind. He had no friends in this country save an uncle, Mr. James A. Grav, in Augusta, Ga., one of the noted merchants of that city. With him Mr. Mimnaugh spent the succeeding five years and got his first ideas of mercantile life.

In 1878, with less than \$1,000 to his credit, he went to Winnsboro and began business alone. Investing his money judiciously, he went to work and soon built up a large husiness. He kept his eye open for bargains and made several good trades, from which he realized much, while in the town among the red clay hills.

In 1883 he sold out his business in Winnsboro and came to Columbia. All of us know the rest. From a business conducted in one store room, he has built up a mercantile business second to none in the whole State. He re- says that there are know at the Missiscently bought the Agnew block, which he has had completely renovated. Both floors of this building are now taxed to their limit to accommodate the trade that is conducted therein, and the hale, hearty, jovial, energetic man whom you see watching every part of that business, has built it up entirely by his own pluck and push. No help has he received from out-

side sources, and many are the difficulties he has overcome, but he has looked them all in the face and been discouraged at nothing. Now he can say he owes no man, and to the writer's personal knowledge his ledgers show a ! alance in his favor over the amount

In 1878 he was worth \$1,000, and in 1890, \$125,000. Is that making money last enough? For the Agnew block he paid over \$25,000, and every dollar he has paid in cash. From that showing can one say

there is no life in our State, that no nonev can be made here? We give this as an example of what can be done in one of the most hazardous srades known, one in which over 95 per cent. of those who engage in it cannot succeed.

There are many others that have done as well as Mr. Mimnaugh, but there are few who have done as much with as little extraneous aid. What he has done should be a great stimulus and encouragement to the young men of our State. That they can live in this beautiful, God-blessed land among those who have kindred sympathies and yet feel that the chances for success are as great here as anywhere else in this land.-Columbia

Bright's Disease.

This insiduous silment, if too long negiceted, will addenuise the strongest constitution and bring the victim to a premature grave. Head the timely warsing, and regain health at once by a ; organs, B. B. B. (Botanic Blood Balm). David Runkel, Cullman, Ga., writes: "I used a hundred dollars worth of medicine for Bright's disease, but it did me no good. I then took B B B., which

and I urinate without pain." J. A. Maddor, Atlanta, Ga. writes: "I had great trouble in passing urine which was filled with sediments. My flesh. I became pervous and unable to sleep soundly. Two bottles of B. B. B.

Thomas Williams, Soddy, Tenn, writes: "I was troubled with severe kidney complaint and confined to my bed. Six

Chicago Begging for Money. At least \$15,000,000 will be needed. A third thereof may be said to be in sight. The subscription list may be increased and perhaps another \$5,000,-000 may be raised by bonds, but the problem would be greatly simplified if the government of the United States would advance \$10,000,000 conditioned upon repayment in full. The bill as reported centemplates no appropriation other than \$1,500,000 to cover the cost of a government exhibit, and the tur he: sum of \$100,000 to be expended to all purposes connected with the ad aission of foreign goods for the expusition. There is no clause providing for other government aid to the project. Whether or not any will be made will develop presently. The prospect is that it will be greatly needed in the preparatory stages. It it must be had the time to ask for it is now.—Chicago Times.

The Mother's Friend, used a few weeks before confinement, lessens the pain and makes labor quick and comparatively easy. Sold by all drug-

The Mississippi College.

Cal. Bowen, of Pickens, a member of the board of trustees of the Clemson Agricultural College of South Carolina. has just returned from Starkville, and sippi Agricultural College 250 students From what he saw of the institution and from his conversation with President Lee, he was convinced that there was no doubt of the college being a success. It had been seriously ham pered in the past by opposition in the State and its operations had in late years been pinched by small appropriations. Last year, however, the appropriation had been liberal enough o put the college on a better footing than ever before. Another serious drawback had been destruction by fire of a number of the college buildings a year ago. The barns and stables were burned, which had recessitated the saie of a number of the cattle and the temporary limitation of some of the practical farm operations included in the college course. Temporary buildings were now occupied in place of

those burned. - Greenville News A Breathing Cave.

In the range of mountains in the western portion of Norih Carolina known as the "Fork Range," a most singular phenomenon exists It is the "Breathing Cave" In the summer months a current of air comes from it so strongly that a person cannot walk against it, while in winter the rush o air inward is just as great. The cool air from the cave in summer is felt sometimes for miles in a direct line from the mouth of the cave. At times a most unpleasant odor is emitted upon the current from animals sucked in and killed by coming in violent con-tact with the walls. The loss of cattle and other stock in that section during the winter months is always great and is accounted for it in this way: They range too near the month of the cave and the current carries them in. At times when the change from inhalation to exhalation begins the air is filled with hairs of the various animals. Not infrequently small dry bones have been carried for over a mile from the mauth of the cave, as though shot from an sir-gun. The air has been known to change quite suddenly during exhalation from cold to quite hot, accompanied by a terrific roaring and gurgling sound Many scientific men have visited the place, but the phenomenon still remains unexplained. The presideat of that section fear a volcanic

Determined to Find Them Out. The young men of this city will no doubt be sadly grieved to !carn that our young ladies are secretly organizing a society which is to be conducted on this principle: It shall be the duty of every member to ascertain the conduct of the opposite sex, and any member guilty of treating any young man the least addicted to dissipation with even common civility will be subject to dismissal from fer with each other for the purpose of the organization. Any young man who trying to effect a union of their has heretofore been in good standing in strength for future efforts, upon the the estimation of the society, and who shall commit an act unbecoming morality, shall be placed upon the black list and not accorded any further courtesies society. Any member of the society who shall continue to display regard or affection to any black-listed male shall be dishonorably discharged and consid-

> -George Francis Train left Boston at midnight Sunday night for his trip around the world, which he expects to complete in sixty days. New York was his first stopping place. From there be will go directly to Tacoma, and thence across the Pacific Ocean to China.

-The Rev. Sam Jones preached at Dalton, Ga., on Sunday. He took occasion to deny that he intended to move to Kentucky and farm. Said he: "I am making more money than any ten bishops in the Methodist Church, and it would be foolish for me to go into anything like an experiment."

-At the evening session of the Florida Chautauqua, Tuesday, Dr. J. W. Lee, of Atlanta, delivered a lecture on Henry W. Grady as editor, orator and man. The amphitheatre was filled to its utmost capacity and the andience was bold spell bound while Dr. Lee delivered his
